- ~ without caustic or toxic residues
- ~ without lint and dripping
- ~ heat and cold resistant
- ~ Gentle on materials (also suitable for displays & touchscreens)
- ~ no requirement of any hazard warnings
- ~ Cloth size: 30 x 25 cm

## Product Description

Hydroliq PROFESSIONAL is an electrochemically modified water without any synthetic additives. The manufacturing process creates a surface disinfection solution with the ability to eliminate 99.99% of all bacteria, viruses, germs, spores and fungi within seconds.

The chlorine alkali electrolysis process produces a disinfectant solution that is pH-neutral and at the same time very stable (guaranteed 12 months after opening).

## Unique Hygiene Technology

In contrast to conventional room or surface disinfectants, Hydroliq PROFESSIONAL does not leave any caustic residues and thus do not damage any materials during disinfection. The treated surfaces and rooms can be used by people immediately after or even during disinfection.

Since no alcohol is used and due to the good skin tolerance the user's skin does not dry out, which prevents germs from penetrating into cracked skin areas.

Hydroliq PROFESSIONAL provides a large spectrum of efficacy and deals with the majority of all germs that are adhering on surfaces:

- ~ **Virucidal**  
HBV, HCV, HIV, influenza, Coronaviridae, etc.
- ~ **Bactericidal**  
Staphylococcus aureus, Enterococcus hirae, Pseudomonas aeruginosa, etc.
- ~ **Fungicidal**  
Candida albicans, Aspergillus brasiliensis, etc.

## Areas of Application

Hydroliq PROFESSIONAL is used in all hygiene-relevant areas:

- ~ healthcare facilities
- ~ nursing homes
- ~ public buildings
- ~ public transport
- ~ gastronomy and hotel industry
- ~ industry and commerce
- ~ educational institutions
- ~ airports
- ~ home care
- ~ agriculture
- ~ Etc.

# Hydroliq WIPES

Disinfectant wipes in combination with  
**Hydroliq PROFESSIONAL**

## Advice of Application

Surface disinfection (non-porous surfaces) in the private sector, in the public health sector, in swimming pools as well as in the food and feed sector, etc. Use by wiping or spraying. The surfaces must be cleaned before disinfection. Use a sufficient amount so that the treated surfaces remain moist for the entire duration of exposure. For professional and private use.

Area of application	Dosage	Contact time
Virus inactivation (HBV, HCV, HIV, Influenza, coronaviridae, etc.)	undiluted	2 min.
Bacteria inactivation (Staphylococcus aureus, Enterococcus hirae, Pseudomonas aeruginosa, etc.)	undiluted	1 min.
Fungi inactivation (Candida albicans, Aspergillus brasiliensis, etc.)	undiluted	1 min.

## Certification

Hydroliq PROFESSIONAL has been dermatologically tested and found to be „EXCELLENT“ by Dermatest.

Hydroliq PROFESSIONAL is Halal certified.

## Packing Unit

Size	Item No.	Content
Hydroliq WIPES	HydroWIPES	8 rolls of 115 cloth/ box
Hydroliq WIPES Box	HydroWIPES Eimer	
Hydroliq PROFESSIONAL 5'000ml	HydroPro0305	96 pcs./ pallet

## Composition

Active chlorine, released from hypochlorous acid.

## Physical and Chemical Data

The product is not flammable.

## Indicator according to International Directives

The expiration date of this product is printed on the label. Do not use the product after this date!

Use biocides carefully. Always read the label and product information before use. Safety Datasheet will be provided upon request.

BAUA: N-99400

BAG: CHZN6380

## Storage

Keep container tightly closed in a cool, dry, well-ventilated place. Protect from heat. Protect from light.

## Durability

The following durability data should be observed when using Hydroliq PROFESSIONAL:

from date of manufacture (expiration date)	24 months
in open condition, but firmly resealed containers or in use with dosing pump	12 months
in a dispenser	12 months
