- › Spectrum of activity: virucidal, bactericidal, fungicidal, sporicidal
- › Listed by BAG / ECHA / VAH
- › Free from harmful substances and alcohol
- › Gentle on materials
- › Odour-neutralizing
- › No labeling required according to GHS

Product Description

In livestock farming, disinfection is not only an indispensable part of daily operations, but also of crucial importance for animal welfare and farm profitability. Disinfection goes far beyond mere cleanliness – it plays a key role in reducing the use of antibiotics, promotes animal health and reduces production costs by maintaining a healthy livestock population.

Application

ANIMAL is approved for skin disinfection on animals as well as for oral hygiene. Ideally suited for all surfaces that come into direct contact with the animal, as well as for the animal itself.

Area of application

Animal (skin, mucous membrane, ears, fur)
Bridle
Noseband
Watering trough

Storage

Store the product tightly closed in a cool, dry place.
Protect from light and heat.

*Handle biocides with care. Always read the label and product information before use.
Safety data sheet available on request.*

Certification

Approval number: CHZN5775.03.002

295687 - CH - 0202

Composition

Active chlorine released from hypochlorous acid.
500ppm

Effect

Bactericidal (EN13727)
Myko Bactericidal (EN14348)
Virucidal (EN14476)
Fungicidal (EN13624)
Sporicidal (EN17126)

Hazard warnings

No instructions necessary
