Disinfection for livestock

- › Spectrum of activity: virucidal, bactericidal, fungicidal, sporicidal
- › Listed by BAG / ECHA / VAH
- › Free from harmful substances and alcohol
- › Gentle on materials
- › Odour-neutralizing
- › No labeling required according to GHS

Product Description

In livestock farming, disinfection is not only an indispensable part of daily operations, but also of crucial importance for animal welfare and farm profitability. Disinfection goes far beyond mere cleanliness – it plays a key role in reducing the use of antibiotics, promotes animal health and reduces production costs by maintaining a healthy livestock population.

Application

ANIMAL Plus is a reliable solution for surface disinfection in agriculture that kills 99.99% of environmental germs within a few seconds. It enables effective and easy disinfection of instruments, stables, feed stores, feeding facilities and milk processing plants. Spray the surface to be disinfected generously.

Area of application

Stable
Silo
Feed manger
Feeding systems
Milking systems

Storage

Store the product tightly closed in a cool, dry place.
Protect from light and heat.

*Handle biocides with care. Always read the label and product information before use.
Safety data sheet available on request.*

Certification

Approval number: CHZN5775.02.001

295687 - CH - 0202

Composition

Active chlorine released from hypochlorous acid.
750ppm

Effect

Bactericidal (EN13727)
Myko Bactericidal (EN14348)
Virucidal (EN14476)
Fungicidal (EN13624)
Sporicidal (EN17126)

Hazard warnings

No instructions necessary

Packaging Units

Size	Item number	Content
Hydroliq ANIMAL Plus 1L	HydroAn7501F	12 pieces/carton
