virucidal, bactericidal, fungicidal, sporicidal
- › Listed by BAG / ECHA / VAH
- › Free from harmful substances and alcohol
- › Gentle on materials
- › Odour-neutralizing
- › No labeling required according to GHS

## Product Description

If the air conditioning system smells unpleasant, the cause is usually fungi and bacteria that have settled between the evaporator and fan. These are not only harmful to the air conditioning system, but also to your health. For this reason, it is important to have the air conditioning system disinfected at regular intervals. Disinfecting the interior and air conditioning system is an attractive service that workshops can offer their customers. This is because regular maintenance of the air conditioning system is worthwhile in order to avoid major damage.

## Application

Used in combination with device Hydromac CD500

- Connect the appliance to the compressor. Lower one window pane half-way. All other windows in the vehicle remain closed.
- Run the vehicle's air conditioning at the highest level and recirculate the air in the vehicle.
- Run for 5-10 minutes depending on the size of the vehicle interior.

**Note:** The duration should be selected so that the surfaces do not become damp. If this is the case, the duration must be reduced accordingly.

## Area of application

Vehicles (cars, trucks, etc.)

## Storage

Store the product tightly closed in a cool, dry place.  
Protect from light and heat.

*Handle biocides with care. Always read the label and product information before use. Safety data sheet available on request.*

## Certification

Approval number: CHZN5775.02.002

## Composition

Active chlorine released from hypochlorous acid.  
500ppm

## Effect

Bactericidal (EN13727)  
Myko Bactericidal (EN14348)  
Virucidal (EN14476)  
Fungicidal (EN13624)  
Sporicidal (EN17126)

## Hazard warnings

No instructions necessary

## Packaging Units

Size	Item number	Content
Hydroliq CAR 500ml	HydroCa50005F	30 pieces/carton
