- › Spectrum of activity: virucidal, bactericidal, fungicidal, sporicidal
- › Listed by BAG / ECHA / VAH
- › Free from harmful substances and alcohol
- › Gentle on materials
- › Odour-neutralizing
- › No labeling required according to GHS

Product Description

WATER DISINFECTION *Plus* is a sustainable alternative to conventional disinfection methods, offering easy application without requiring extensive modifications to the water supply system. Its integration into existing dosing systems enables a cost-effective and odor-neutral disinfection method. Hydroliq WATER DISINFECTION *Plus* effectively disinfects water without burdening the immune system and leaves no residues in the water. This ensures that clean and germ-free water is always available without compromising safety.

Application

The appropriate dosage is determined by considering the design and condition of the water installations, as well as the regulations of the EDI on drinking water and water in publicly accessible baths and showers.

It is suitable for both professional and private use.

Areas of Use

Food production
Domestic installations
Swimming pools & wellness facilities
